**Career and Professional Development Reflections from
a 30-Year Career**

Abstract

Chris Miller, Vice President of Respiratory & Immunology Biometrics and Statistical Innovation at AstraZeneca Pharmaceuticals, will share his career story – starting from being a **Mathematical Sciences major at Loyola (class of 1990)** - and discuss tips that might help you as you embark on your own careers. The talk will go through some pivotal moments in Chris' career and describe how technical aptitude, soft skills, values and courage all play a role in navigating a successful career.
