 Open Access Plus Plan
 OAP
 Effective - 07/01/2025

Selection of a Primary Care Provider - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card.

| Cost Share and Supply Cigna Pharmacy Cost Share <ul style="list-style-type: none"> Retail – up to 90-day supply (except Specialty up to 30-day supply) Home Delivery – up to 90-day supply | | |
| <ul style="list-style-type: none"> Member Choice Cigna 90 Now: This network of pharmacies includes major retail chains of Walgreens and CVS, in addition to other grocery, retailer, and independent pharmacies. You will be aligned to either the Walgreens or CVS network based on your existing pharmacy relationship. Where no relationship exists, you will be aligned to plan sponsor elected CVS pharmacy. If that designation is not right for you, there is the option to select Walgreens. For more information, go to myCigna.com or call the number on the back of your ID card. Retail drugs for a 30-day supply may be obtained in-network at a wide range of pharmacies across the nation although prescriptions for a 90-day supply (such as maintenance drugs) will be available at select network pharmacies. Cigna 90 Now Program: You can choose to fill your medications in a 30- or 90-day supply. If you choose to fill a 30-day prescription, it can be filled at any network retail pharmacy or network home delivery pharmacy. If you choose to fill a 90-day prescription, it must be filled at a 90-day network retail pharmacy or network home delivery pharmacy to be covered by the plan. Specialty medications are used to treat an underlying disease which is considered to be rare and chronic including, but not limited to, multiple sclerosis, hepatitis C or rheumatoid arthritis. Specialty Drugs may include high cost medications as well as medications that may require special handling and close supervision when being administered. When patient requests brand drug, patient pays the brand cost share plus the cost difference between the brand and generic drugs up to the cost of the brand drug (unless the physician indicates "Dispense As Written" DAW). Exclusive specialty home delivery: Specialty medications must be filled through home delivery; otherwise you pay the entire cost of the prescription upon your first fill. Some exceptions may apply. SaveOn Specialty Program: Certain specialty pharmacy drugs may be considered non-essential health benefits and may fall outside of the deductible and out-of-pocket limits. All drugs in this program are potentially subject to a higher cost share than amounts set forth above. If you participate in the program, cost share may be paid through a manufacturer copay assistance program and your out-of-pocket cost may be reduced to \$0. If you do not participate in the program, then you will be responsible for the payment of the cost share for these medications and payment will not be applied towards your deductible and out-of-pocket maximums. See your plan documents for more specific information. Your pharmacy benefits share an out-of-pocket maximum with the medical/behavioral benefits. If you receive a supply of 34 days or less at home delivery (including a Specialty Prescription Drug), the home delivery pharmacy cost share will be adjusted to reflect a 30-day supply. | | |

Coordinated by Cigna HealthCare. This is a service designated to provide assistance to a patient who is at risk of developing medical complexities or for whom a health incident has precipitated a need for rehabilitation or additional health care support. The program strives to attain a balance between quality and cost effective care while maximizing the patient's quality of life.

Cigna Diabetes Prevention Program in collaboration with Omada is a program to help you avoid the onset of diabetes, as well as health risks that might lead to heart disease or a stroke. The program is covered by your health plan at the preventive level, just like for your wellness visit. Program participants have access to a professional virtual health coach, an online support group, interactive lessons, and a smart-technology scale. The program will help you make small changes in your eating, activity, sleep, and stress to achieve healthy weight loss through a series of 16 weekly lessons and tools to help you maintain weight loss over time. Maximum Reimbursable Charge

The allowable covered expense for non-network services is based on the lesser of the health care professional's normal charge for a similar service or a percentage of a fee schedule (110%) developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule will not be used and the Maximum Reimbursable Charge for covered services is based on the lesser of the health care professional's normal charge for a similar service or a percentile (80th) of charges made by health care professionals of such service or supply in the geographic area where it is received. If sufficient charge data is unavailable in the database for that geographic area to determine the Maximum Reimbursable Charge, then data in the database for similar services may be used. Out-of-network services are subject to a contract year deductible and Maximum Reimbursable Charge limitations.

Out-of-Network Emergency Services Charges

1. Emergency Services are covered at the in-network cost-sharing level as required by applicable state or federal law if services are received from a non-participating (out-of-network) provider.
2. The allowable amount used to determine the plan's benefit payment for covered Emergency Services rendered in an out-of-network hospital, or by an out-of-network provider in an in-network hospital, is the amount agreed to by the out-of-network provider and Cigna, or as required by applicable state or federal law.

The member is responsible for applicable in-network cost-sharing amounts (any deductible, copay or coinsurance). The member is not responsible for any charges that may be made in excess of the allowable amount. If the out-of-network provider bills you for an amount higher than the amount you owe as indicated on the Explanation of Benefits (EOB), contact Cigna Customer Service at the phone number on your ID card.

Definitions

Coinsurance - After you've reached your deductible, you and your plan share some of your medical costs. The portion of covered expenses you are responsible for is called Coinsurance.

Copay - A flat fee you pay for certain covered services such as doctor's visits or prescriptions.

Deductible - A flat dollar amount you must pay out of your own pocket before your plan begins to pay for covered services.

Out-of-Pocket Maximum - Specific limits for the total amount you will pay out of your own pocket before your plan coinsurance percentage no longer applies. Once you meet these maximums, your plan then pays 100 percent of the "Maximum Reimbursable Charges" or negotiated fees for covered services.

Place of Service - Your plan pays based on where you receive services. For example, for hospital stays, your coverage is paid at the inpatient level.

Prescription Drug List - The list of prescription brand and generic drugs covered by your pharmacy plan.

Professional Services - Services performed by Surgeons, Assistant Surgeons, Hospital Based Physicians, Radiologists, Pathologists and Anesthesiologists

Transition of Care - Provides in-network health coverage to new customers when the customer's doctor is not part of the Cigna network and there are approved clinical reasons why the customer should continue to see the same doctor.

Exclusions

What's Not Covered (not all-inclusive):

Your plan provides for most medically necessary services. The complete list of exclusions is provided in your Certificate or Summary Plan Description. To the extent there may be differences, the terms of the Certificate or Summary Plan Description control. Examples of things your plan does not cover, unless required by law or covered under the pharmacy benefit, include (but aren't limited to):

- Care for health conditions that are required by state or local law to be treated in a public facility.
- Care required by state or federal law to be supplied by a public school system or school district.
- Care for military service disabilities treatable through governmental services if you are legally entitled to such treatment and facilities are reasonably available.

Exclusions

- Treatment of an Injury or Sickness which is due to war, declared, or undeclared.
- Charges which you are not obligated to pay or for which you are not billed or for which you would not have been billed except that they were covered under this plan. For example, if Cigna determines that a provider or Pharmacy is or has waived, reduced, or forgiven any portion of its charges and/or any portion of Copayment, Deductible, and/or Coinsurance amount(s) you are required to pay for a Covered Expense (as shown on The Schedule) without Cigna's express consent, then Cigna in its sole discretion shall have the right to deny the payment of benefits in connection with the Covered Expense, or reduce the benefits in proportion to the amount of the Copayment, Deductible, and/or Coinsurance amounts waived, forgiven or reduced, regardless of whether the provider or Pharmacy represents that you remain responsible for any amounts that your plan does not cover. In the exercise of that discretion, Cigna shall have the right to require you to provide proof sufficient to Cigna that you have made your required cost share payment(s) prior to the payment of any benefits by Cigna. This exclusion includes, but is not limited to, charges of a non-Participating Provider who has agreed to charge you or charged you at an In-Network benefits level or some other benefits level not otherwise applicable to the services received.

 - the subject of an ongoing phase I, II or III clinical trial, except for routine patient care costs related to qualified clinical trials as provided in the "Clinical Trials" sections of this plan.

In determining whether any such technologies, supplies, treatments, drug or Biologic therapies or devices are experimental, investigational and/or unproven, the utilization review Physician may rely on the clinical coverage policies maintained by Cigna or the Review Organization. Clinical coverage policies may incorporate, without limitation and as applicable, criteria relating to U.S. Food and Drug Administration-approved labeling, the standard medical reference compendia and peer-reviewed, evidence-based scientific literature or guidelines.
