

Rubric for SS Student Research Apprenticeship

Note: Incomplete applications will be considered only if there are fewer than three submissions (complete applications include all questions answered and CV submitted). All else the same, tenure-track will receive priority over tenured faculty, who will receive priority over teaching-clinical faculty on account of research counting towards annual review for the former, but not the latter. Faculty research needs for an apprentice will receive priority over graduate student's needs for a research apprentice.

1. Have you received a SS student apprentice before? _____
 0. (received funding 3+ times)
 1. (received funding 2x)
 2. (received funding 1x)
 3. (never received funding)
